WhatsApp message charges by Meta

Official per-message rates for every country · effective 1 October 2026

Kapso Solutions
WhatsApp CRM

What this is

- Your plan price covers the CRM. **Meta charges separately for the WhatsApp messages you send**, and bills your own Meta business account (Meta Billing Hub), not us.
- Meta charges **per delivered message**, by the message's category and the country code of the customer's number. Messages customers send to you are free.
- Categories: **Marketing** (offers, announcements, campaigns), **Utility** (order, booking and account updates), **Authentication** (one-time codes), **Service** (your free-form replies inside the 24-hour window).

India at a glance (per delivered message)

₹0.8631	₹0.1150	₹0.1150	₹2.4971	₹0.1150
Marketing	Utility	Authentication	Authentication-International	Service

In US dollars: marketing $0.0118, utility $0.0014, authentication $0.0014, service $0.0014.

When Meta doesn't charge

- The first **1,000 service messages each month**, per business phone number (they don't roll over).
- Every message in a **free entry point window**: when a customer writes to you from a Click-to-WhatsApp ad or a Facebook Page button and you reply within the 24-hour window. The window can stay open for up to 7 days.
- Messages that aren't delivered.

Changed on 1 October 2026

- Service messages are charged again (after the 1,000 free each month).
- Utility templates sent inside an open 24-hour window are charged again.
- Nine markets moved out of "Rest of" regions to their own rates.
- Indian businesses billed by Meta must move their WhatsApp billing to INR by 31 December 2026.

Rates by country

Each cell: rupees (INR rate card) and, below, US dollars (USD rate card). Authentication-International applies in some markets when the business is from another country. "—" = not offered.

Market	Marketing	Utility	Authentication	Authentication-International	Service

Source: Meta, WhatsApp Business Platform pricing (developers.facebook.com/docs/whatsapp/pricing): “Cost per message in INR / USD on the WhatsApp Business Platform, effective October 1, 2026” list-rate cards. These are list rates: utility and authentication messages get lower rates at high monthly volumes (Meta's volume tiers), and Meta Business Agent (AI) replies are charged by tokens ($2.00 per million). Meta can change rates on the first day of a quarter; Meta's page and your Meta Billing Hub always have the current rates and what you were charged. Taxes may apply on Meta's invoice.
